Professional Experience

Xccelerated AI, Lahore

Technical Project Manager, 04/2026 – present

Project: Voxbee.ai – AI-Powered Content Creation OS

Leading the delivery of Voxbee.ai, an AI-powered multimedia content creation OS, for a fast-moving AI startup.

Key Achievements:

- Lead end-to-end delivery of an AI-powered content creation OS serving 3,000+ active users, managing a cross-functional team of 7 and reporting directly to the CEO and CTO
- Coordinate cloud infrastructure across Azure, AWS, and Google Cloud with the DevOps team, maintaining 99.9% uptime and cutting monthly cloud costs by 15% through resource optimization
- Implement full Scrum framework (all 4 ceremonies) using Jira, Trello, Claude, and Teams, improving sprint velocity by 30% and on-time delivery from 70% to 90% within few months
- Evaluated 8 AI models pre-implementation and drove prompt engineering enhancements with AI developers, improving output accuracy by 25% and reducing generation errors by 40%
- Streamlined PM processes (standardized workflows, automated reporting), reducing planning overhead by 5+ hours/week and shortening release cycles from 4 to 2 weeks
- Present product demos and progress to executives in bi-weekly leadership meetings, securing buy-in for 3 major roadmap initiatives
- Shipped a Marketing OS and a Video & Image Editor within a single month, cutting feature delivery time by 40% through a custom-built Parallel Documentation Framework.

Freelance, Self-Employed

Project Manager, 04/2025 – 03/2026

Delivering independent project management for early-stage startups across AI, fintech, and logistics.
